LB 216

that you really care about and you think we ought to pass them. Well, we don't have to end the session after 90 days. Who said we have to end it? By a vote we can extend it as long as we want to, and then if we extend it and then get tired and go home, then the Governor can always call us back. He can say, it's...I'm going to spend that million dollars to call you back into session that you refused to give Senator Chambers on LB...by way of striking LB 216. Senator Wehrbein, I'm starting to look at this figures now. What I do...

SENATOR CROSBY: One minute.

SENATOR CHAMBERS: ...cannot be called "crunching numbers", it doesn't reach that level, but I can figure things out and hook one...let's say we're building a train, not constructing the cars but adding cars. I know that if I hook this car to the engine then hook a car to that car, we have three elements, whereas we only had one. Then if I hook another one, we have four, and every one that I hook on adds to the length of the train. And you all have put a long train out there for me to deal with, and I intend to do it. This amendment would reduce that fee from three dollars to two dollars. The reason I hope you will accept it, it will be less painful, then, for us to do away with the bill. I would ask for a call of the house.

SENATOR CROSBY: Thank you, Senator Chambers. A request for a call of the house. All in favor vote aye, opposed no. Record, please.

CLERK: 13 ayes, 0 nays to place the house under call.

SENATOR CROSBY: The house is under call. Would all senators please record your presence. Would those unexcused senators please return to the Chamber and record your presence. Would all unauthorized personnel please leave the floor. Senator Preister, Senator Schimek, Senator Wesely, the house is under call. Senator Jones, Senator Matzke. All present and accounted for, the question is the adoption of the Chambers amendment to LB 216. All in favor vote aye. Opposed no. A record vote has been requested. Record, please.
